

# Market Data Connection Support

April 2022

## Market Data Connection Support

IPsx UK Limited (“IPsx”) will provide a contribution to any reasonable costs, including licence fees, incurred by an eligible claimant to receive real-time IPSX market data for the purpose of providing trading services in shares admitted to trading on IPSX.

To be entitled to this support, a claimant must apply in writing to IPSX and provide estimates of the costs it expects to incur in establishing connections to receive real-time IPSX market data. IPSX will review the application and confirm the applicant’s entitlement to receive support and the amount which IPSX will contribute. Further, by no later than 31 March 2023, the claimant must:

1. be connected to a market data provider and be consistently displaying IPSX market data on public and/or secure websites; and
2. provide IPSX with evidence of the actual costs incurred.

Payment will only be made by IPSX to a claimant once all of the above steps above have been completed.

The contribution will not be available towards the installation costs of any systems that are provided by IPSX, such as cBlue, or towards any other costs that an eligible claimant may incur in order to access IPSX market data or the IPSX Trading Platform.

The contribution is limited to the costs incurred in relation to one market data provider per eligible claimant.

IPsx reserves the right to amend or withdraw this offer prior to 31 March 2023 by providing no less than three (3) months’ notice.

All terms used in this document have the meanings given to them in the IPSX Rules for Members.
